Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of November 10, 1977 (based on reports from exporters for the week ending October 30 unless otherwise noted).

Wheat: Brazil dominated moderately heavy sales activity as they added 192,000 metric tons (MT) of Hard Red Winter to sizeable existing purchases. Other notable buyers included Japan, Philippines, Venezuela, Netherlands and unknown destinations. Algerian purchases of 20,700 MT of Soft Red Winter were switched to Morocco and exported. The Netherlands, Egypt and Italy were named as final destinations on substantial quantities previously reported to unknown (82,400 MT). Sales reported under the daily system for 1977/78 included 100,000 MT to unknown destinations and 200,000 MT from optional origins to Morocco. Exports of 624,000 MT were above recent levels.

Corn: New sales continued brisk (635,300 MT) with significant sales reported to Japan and Spain for the second consecutive week. The Netherlands and the U.K. also added notable quantities to their accumulated purchases. East Germany, Japan and Spain were the principal beneficiaries of the switches from unknown destinations. Transactions under the daily system for 1977/78 were nearly offsetting as new sales totalled 273,927 MT, including 152,000 MT to Spain and 121,927 MT to unknown and a foreign purchase of 254,000 MT to the Netherlands was reported. Rate of exports continued heavy (830,000 MT) exceeding the marketing year's (MY) high established last week.

Barley: A small sale to Japan was about the only new business in a quiet market. Korea's total purchases continued to swell as 25,400 MT was shifted from unknown and shipped. Optional origin sales to Iran were switched to other than U.S. suppliers. Exports were moderately heavy.

Sorghum: Sales activity recovered from the level of the last two weeks but was still modest. Japan was the major buyer while exporters reported the first sales of the MY to Spain. Sales of 22,900 MT to Israel were cancelled. Exports continued slow.

Oats: Interest in oats continued active as sales of 18,100 MT to unknown destinations were reported.

Rice: Export sales registered a sharp increase, totalling the heaviest so far this MY. Indonesia added 50,000 MT of milled medium-short grain rice to their earlier commercial purchases bringing the total this MY to 60,000 MT. Sales to Italy continued strong as 9,000 MT of medium-short rough rice and 5,000 MT of milled long grain were reported. Small sales were also reported to Middle Eastern markets. The pace of exports registered a slight recovery.

Soybeans: Sales declined from the record-setting pace of a week ago. Increases were reported to the EC, other Western European countries, Japan and Canada. Numerous contract adjustments were also reported. An initial sale of 1,500 MT was made to Malaysia. Exports (785,400 MT) reached a MY high with the EC (55 percent), Japan (20 percent) and other Western European countries (18 percent) being the primary recipients.

Soybean Cake and Meal: Sales picked up sharply from the level of the past few weeks as the EC, East Germany and unknown destinations increased purchases. Exports (108,600 MT) increased over two fold with the EC accounting for 78,200 MT. The first export of the MY was reported to Mexico (20,000 MT).

Soybean Oil: New sales were reported to Taiwan, Peru and the Dominican Republic. A number of destination changes resulted in net reductions in sales to the Netherlands and India and initial or increased sales to the PRC, Chile and unknown destinations.

Cotton: Sales activity remained quiet. Most significant were additions to MY 1977/78 purchases by Thailand, Indonesia and Korea and to MY 1978/79 by Korea. Exports (35,000 RB) continued small with 74 percent going to Asia.

Data shown above may not add due to rounding. 1/ Includes increases resulting from new sales, upward contract adjustments, shifts in delivery period from one marketing year to another and changes from one commodity to another. 2/ Net foreign purchase activity. A purchase from a foreign seller is a transaction contracting to buy U.S. produced commodity from a firm outside the U.S. -- not involving a cancellation or buy-back of a reported sale. 3/ Includes decreases resulting from buy-backs of all or part of a contract balance by mutual consent, unilateral cancellation by one party which could result in a contract dispute, downward contract adjustments, shifts in delivery period from one marketing year to another, and changes from one commodity to another. 4/ Does not include exports for exporter's own account.
